1 Inline Markup

Paragraphs contain text and may contain inline markup: *emphasis*, **strong emphasis**, `inline literals`, standalone hyperlinks (http://www.python.org), external hyperlinks (Python), internal cross-references (Chapter 2), external hyperlinks with embedded URIs (Python web site).

Literal blocks are indicated with a double-colon ("::") at the end of the preceding paragraph (over there `-->`). They can be indented:

```
if literal_block:
    text = 'is left as-is'
    spaces_and_linebreaks = 'are preserved'
    markup_processing = None
```

2 Table

Inputs		Output
A	**B**	**A or B**
False	False	False
True	False	True
False	True	True
True	True	True
